ANDEX STOCK-COMBO BLISTERS

Eliminate the need to invest in custom designed tooling when one of our existing stock molds are appropriate.

- No tooling cost. Zero. Zilch. Nada.
- Available in versatile square, circular, and rectangular shapes.
- Low, moderate, to high quantities using the cost effective COMBO-PAC Blister Runs.
- Ask about our Combo Blister Card program providing quality, low cost, blister cards and single source convenience.

Purchase both your **blisters & cards** from Andex for a [guaranteed fit and seal](#).

Measuring A Blister

1. Length and width measurements are made at the inside open edge of the blister's base, from one corner to the next, excluding the flange. The third dimension is always the height.
2. Blister's sides taper inward at a draft angle of at least 7 degrees to 10 degrees, making its inside top dimensions slightly smaller than its base. (*Samples should be requested to establish proper fit with product being packaged.*)
3. To determine smallest possible card size, add at least twice the flange width plus 1/8" to blister dimensions. Allow additional space for graphics and hanger hole if required.

Andex - Expect Excellence for:

Blisters & Blister Cards

Clamshells & Insert Cards

Skin Board

Specialty Printing & Thermoforming
